• About

I'm an experienced Front End Developer with a passion for great user experience. I'm skilled in Angular, RXJS, NGRX, TypeScript, Test Driven Development, and Accessibility. I'm currently working as an Angular Developer at RBC.

• Work History

Royal Bank of Canada

Front End Developer   May 2021 - Present

I work with a small team of developers maintaining and improving an Angular-based internal app used across RBC. I regularly work with Redux, RXJS, TypeScript, and Jasmine. The division is an Agile environment which focuses on Continuous Delivery and Test Driven Development.

During my time on the team, I have undertaken through Accessibility audits of our app and identified several key fixes. I also identified a major bug in RBC's mobile app which, when fixed, resulted in improved customer conversion rates.

St. Joseph Communications

Front End Developer   Aug 2016 - May 2021

Working closely with content and design teams, I led development of WordPress sites for Canon, the Canadian Senate as well as the personal site of Senator Yvonne Boyer. I also built a major redesign of the digital division's corporate site. I also brought our

media brand sites such as [Toronto Life](#) and [Fashion Magazine](#) up to WCAG accessibility standards.

Agency Undone

Front End Developer   Nov 2015 - July 2016

Developed custom WordPress themes and plugins for a variety of clients.
